Intro (Verse)

Chorus

I'm just a square peg in a round hole
 Lord, won't you show me which way to go?
 'Cos I'm stuck in a rut, don't know what I should do
 I've got a bad case of feeling blue

Just a week ago I was A-OK
 Waking up to greet another perfect day
 Little did I know, but I was soon to learn
 How quickly the tables turn

(Chorus)

1 verse instrumental

I don't know what occurred to put me in this mood
 No catastrophe of any magnitude
 Just one thing and another snuck up from behind
 And took away my peace of mind

(Chorus)

1 verse instrumental

(Middle section) Does it worry you the way it worries me
 How the blues can multiply so easily?
 Suddenly a previously happy crowd
 Are sucked into your private little thunder-cloud

A thoughtless word or a careless thought
 Some thing that you said you know you didna ought
 Something that you did you didn't oughta do
 And it all comes back on you.

Longer instrumental (2 verses/middle section/verse)

(Chorus - End)
